FCC - MAIL ROOM

Attn: FCC Docket 92-235

It has been brought to my attention that consideration is being given to adapting regulations that would require local governments to replace their radio systems by 1996. I am wondering if this is indeed true?

If it is, I would like to voice my opposition. Over the past three (3) years, this Department has spent a sizeable amount of money in upgrading its radio system. All mobile and base units have been replaced. It would be a regrettable waste of tax dollars if this would have to be done again.

I look forward to your response.

Very truly yours,

*James R. Moyer*
